

## AES E-Rate Value-Added

1. AdvanEdge Solutions core E-rate team has provided strategic E-rate and technology planning services to traditional public, private, cyber, charter and alternative schools nationwide since the inception of the program. We help our clients to define, plan, implement and fund their technology goals within and outside of the E-rate program.
2. AdvanEdge Solutions consultants possess the expertise to evaluate client education goals and initiatives by assessing the technology requirements that are needed to support them. Our assessment capabilities cover all technology areas including: network infrastructure, data centers, voice and data telecommunications, IT security, business systems and software, educational technology, and policies/procedures.
3. AdvanEdge Solutions is not just an E-rate Filer, we are strategic planners. Our deep knowledge and experience has helped our high growth clients to expand their education footprint while addressing their technology needs in alignment with E-rate rules and funding opportunities both in and outside of the program.
4. AdvanEdge Solutions guarantees that our E-rate Application process follows USAC/SLD rules and can pass a program audit should one occur. We include many safeguards within our Application process that reduce and/or eliminate scrutiny during PIA reviews.
5. AdvanEdge Solutions competitive bidding procedures and Bid Opportunities tool ensures a proactive, fair and open environment for interested service providers to respond to client E-rate RFPs.
6. AdvanEdge Solutions provides two levels of secure, online document retention for our client Application materials. Myratedocs.com is accessible to clients using a secure login and password. Clients are able to access and download their E-rate Application materials, as well as upload any Post Application and Post Funding related files at their discretion if they wish to keep everything in one safe place.
7. AdvanEdge Solutions always represents the best interests of our clients at the FCC, USAC/SLD and state department of education levels in relationship to the E-rate program or with matters that might impact our clients E-rate needs.
8. AdvanEdge Solutions consultants continuously improve upon their knowledge and skills through ongoing training, participation in peer to peer groups and through memberships to leading industry advocacy organizations and publications.
